

# PINELLAS COUNTY'S

## KEY TO ACCESS MENTAL HEALTH, SUBSTANCE USE & ADDICTION TREATMENT SERVICES

### We are here to support residents and connect them with care in an easy and safe way.

Care About Me acts as a centralized intake system that provides personalized assistance in connecting residents to care. Our team is constantly seeking trusted medical professionals we can connect residents with. Specifically, we're looking for therapists, psychiatrists, addiction counselors and all licensed behavioral health professionals.

### Join us as a provider.

We value collaboration and partnerships and are always looking for organizations or individuals who share our vision and values! If you are interested in partnering with us, contact us for more information. Facilities that join the network must be an accredited and licensed facility and/or licensed provider.

### Where do providers fit in?

At Care About Me, we are committed to providing support not only to our residents, but also to our partners. When you become part of our network, we handle the initial steps for you.

- 1 Residents contact our specialists, who will gather information to assess their current needs.
- 2 Our team carefully matches residents with providers who best fit their needs and arranges their first appointment.
- 3 Once the appointment is scheduled, our team will stay connected with the resident until after their initial appointment. From there, we step back and leave the rest to you.

### Care About Me is a confidential line for Pinellas residents to seek appointments for mental health, substance use and addiction treatment.
